

- ① wall needs to go back against wall - the Jack Leg measures 20" flat
- ② no fly away, wrap the same wall measurement around ~~door~~ studio door
- ③ add additional flat w/ 20" Jacks <sup>Right against wall,</sup>
- ④ Kill camera
- ⑤ add tile to studio door

⑥ give measure of lanes on both sides of desk

Hand held camera will flow up and down these lanes so we need to show this
